Vartech Air Conditioning Ltd

Innovative Air Solutions

Domestic / Residential

On a cold winters night, you will be pleased you decided to invest in a quality heat pump solution for your family. A quality heat pump system will add value to your dwelling, make your environment safer for your family and reduce your overall heating spend in the future.

For domestic clients, we specialize in the installation and servicing of heat pumps and ventilation systems.

Commercial / Industrial

Commercial applications require trusted and high quality products. As a business you need to ensure a perfectly controlled working environment for your team and products.

At Vartech Air conditioning Limited, we can match your demanding requirements with our professional air-conditioning, refrigeration and ventilation design, installation and ongoing servicing of your investment.

Recent Customer Commendations:

"Recently I had a new Mitsubishi Electric heat pump installed at my home in Tussock Avenue, Auckland by Mr Vijesh Lal of Vartech Air Conditioning Limited, Auckland. A meticulously performed job through and through, right from the preliminary inspection and advice to the final inspection and tidy up. Highly recommended for a great peace of mind and comfort. Thank you Vartech Air Conditioning Limited for the prompt, professional and well affordable installation and the accompanying compliance certificate."

Devendra Kumar Sharma - Fingerprint Expert & Minister of Religion

"Recently Vartech where commissioned to check the existing Air Conditioning at our premises at 380, Ti-Rakau Drive Botany by the land lord and after the inspection Vartech where then given the contract to install a new system. The installation was carried out with a minimum of disruption to our every day business activities in a very professional manner by excellent tradesmen and completed in a short period of time.

After the installation Vartech paid several visits to the site to inquire if we where satisfied and if we required anything else as they wanted us to happy with the installation. I can personally recommend this company to anyone who requires work of this nature to be carried out with professional people who have an in-depth knowledge of this industry."

David Jones, Manager, Bed Barn Bed
